How To Exchange RIA to wRIA and back:

- Exchange RIA for wRIA:

1. Go to nextgen.ariacurrency.com
2. In the middle of the page, there is a button labeled: SWAP RIA <-> WRIA. Click that.

3. A pop up with come up that looks like this:

4. Enter the amount of RIA you would like to exchange for wRIA in the top box. Then, enter the wallet address for the wRIA token to deposit those tokens.
   a. Note 1: there is a minimum of $5 USD equivalent of RIA to exchange into wRIA. So whatever number is listed there reflects the minimum. Please change based on your needs above that number.
   b. Note 2: You will need to first add the wRIA token to your wallet (Trust, Metamask, etc) in order to generate an address to receive tokens. Please follow instructions for the wallet you intend to use on how to add Custom Tokens to your wallet. The Contract for wRIA is: 0x9a27BF99A177FED8d5704aB14041394bD7732f4c (https://bscscan.com/token/0x9a27bf99a177fed8d5704ab14041394bd7732f4c)
5. If you wish to enter an email for confirmation of transaction, click on Advanced and enter your email in that space. Then click Swap.
6. There will be another pop up showing the details of the exchange and more importantly, the address that you will need to send your RIA to. So, go to your aRIA Core wallet, click Send button and enter that address. Then, put in the amount that you requested to exchange. VERY IMPORTANT: this number must be the same as what you wanted to exchange. So, if you wanted to exchange 100 RIA for 100 wRIA, then you must put 100 into the Core Wallet Send amount space. You may lose your coins or tokens if you do not put in the correct amount!
